

# KROMA Orange Barrier for Construction

A COST EFFECTIVE, MID-LEVEL BARRIER IN 8 PRIMARY COLORS.

Mid-level alternative between the Classic and best-in-class Standard. Demand for this steel barrier variation in primary colors is so great, Blockader has added it to our wide selection of barrier options.

## Known for exceptional quality

- ▶ Full 2.5 meter length, plus hook. Not the shorter 90" frame.
- ▶ Bolt on replaceable bases: flat and bridge
- ▶ Available in 8 brilliant colors

These barricades are built for long-term weather resistance. Manufactured from heavy gauge steel, they provide superior weather protection. The barricades interlock using the broad hook standard. This is compatible with many existing inventories.

# Painted Steel Crowd Control Barriers

*What Color Do You Want?*

## FEET OPTIONS

### BRIDGE FEET (PAIR)

Offers maximum stability on uneven surfaces, such as grass.

Principal corners allow the small bridge base to pivot within the diameter of the large base; assuring maximum stability.

### FLAT FEET

A lower profile than the bridge base.

Features rubber inserts to avoid scuffing indoor surfaces.

### ALSO AVAILABLE:

### STEEL BARRIER CART

Quickly set up and tear down crowd control lines.
