

Heavy Duty Sign Frames

Hard Wearing & Easy Sign Replacement

Our Heavy Duty sign frames are manufactured with a 3/4"/19mm wide steel border making them very robust and ideal for heavy traffic environments. Available in 6 post top sizes these frames accept signs up to 1/4"/6mm thick; alternatively two sheets of clear acrylic can be supplied for use with paper signs. The frames have a top opening and the sign simply slides in making replacement easy. Frames for retracting belt barriers are fitted with a post top adapter which slips over the top of the post for a firm fit. Frames for rope stanchions are fitted with a stud and screw directly into the stanchion's tapped top. Adapters and studs are available to fit all major brands of stanchions.
